

Features

- Constructed from polished TC4 titanium alloy for durability and aesthetic appeal
- Biocompatible, making it nontoxic to humans
- Corrosion resistant, sturdy and durable
- 'Uni-Body' construction is portable and extremely light weight
- Ultra lightweight at only 5 grams
- Single chambered design emits a high pitched frequency for further distance
- Maximum sound intensity of 120 decibels
- Perfect for outdoor events, sporting events, security and law enforcement
- Precisely machined aluminum alloy resonator is durable and strongly resistant to corrosion and extreme temperature
- Simple and highly functional design
- Works in wet or dry conditions

Dimensions

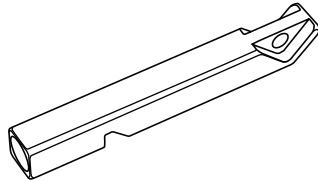

52×7×7mm (2.05"×0.28"×0.28")

Weight

5grams (0.18oz)

Accessories

Key chain

Usage

There are three ways to ensure a louder and more consistent sound:

1. Evenly position lips over the air intake, ensuring an airtight seal.
2. Hold the whistle firmly and horizontal to the ground.
3. Deeply inhale and exhale forcefully.

Maintenance

The NWS10 is constructed from polished titanium alloy which is nonallergenic, corrosion resistant and biocompatible, making it nontoxic to humans.

NWS10 User Manual

A regular inspection is required and the whistle should be cleaned with water or diluted vinegar if there is a visible build-up of debris which can affect sound quality.

Warnings:

1. Ensure when using the NWS10, the sound is directed away from nearby people or animals.
2. Do not chew or bite the whistle
3. Keep away from children and high temperatures
