

# NITECORE®

The All-Round Flashlight Expert

## Features

- Constructed from polished TC4 titanium alloy for durability and aesthetic appeal
- Biocompatible, making it nontoxic to humans
- Corrosion resistant, sturdy and durable
- 'Uni-Body' construction is portable and extremely light weight
- Ultra lightweight at only 13.1 grams
- Double chambered design emits a high pitched frequency for further distance
- Maximum sound intensity of 120 decibels
- Perfect for outdoor events, sporting events, security and law enforcement
- Precisely machined aluminum alloy resonator is durable and strongly resistant to corrosion and extreme temperature
- Simple and highly functional design
- Works in wet or dry conditions

## Dimensions

52×14×7mm (2.05"×0.55"×0.28")

## Weight

13.1grams (0.46oz)

## Accessories

Key chain

## Usage

There are three ways to ensure a louder and more consistent sound:

1. Evenly position lips over the air intake, ensuring an airtight seal.
2. Hold the whistle firmly and horizontal to the ground.
3. Deeply inhale and exhale forcefully.

# NWS20 User Manual

## Maintenance

The NWS20 is constructed from polished titanium alloy which is nonallergenic, corrosion resistant and biocompatible, making it nontoxic to humans. A regular inspection is required and the whistle should be cleaned with water or diluted vinegar if there is a visible build-up of debris which can affect sound quality.

### Warnings:

1. Ensure when using the NWS20, the sound is directed away from nearby people or animals.
2. Do not chew or bite the whistle
3. Keep away from children and high temperatures
